THE EASYWURLD CLIENT PROCESS

Inside audience/offer diagnosis: a community bookstore request.

01

Illustrative request from a community bookstore: readers cannot confirm whether a title is in stock.

02

The documented step is audience/offer diagnosis; a named owner records its decision.

03

Illustrative detail to verify: a catalogue screenshot is older than the latest delivery.

04

What we still need to confirm: scope, reviewer and rights for this project.

05

Only an authorised approver releases this package. Ask how the step works.

06
