How to use this pack

This is a working document, not a book. You do not need to read it in order, and you do not need to finish it before you start. Open the section that matches the problem in front of you today.

> Nothing needs to be filled in before you start. The scripts and prompts are ready to copy. Change the names, prices and items so they sound like you, and keep the structure exactly as it is.

What is in this pack

— The five-stage chat flow

— 36 ready-to-paste scripts

— A lead tracker you can open in Excel or Sheets

— A 7-day WhatsApp Business setup checklist

— A one-page daily follow-up routine

Who it is for

Small-business owners in Nigeria who sell by WhatsApp or Instagram DM: fashion, food, beauty, home services, resellers and service providers.

What this pack will not do

It will not do the work for you, and it does not guarantee a result. It gives you the structure, the words and the routine. The rest is you, doing it consistently for a few weeks. That is not a small thing — most people do not.

THE PROBLEM

Why this exists

You answer enquiries all day. You send the price. The chat goes quiet.

It is almost never the price. It is what happened after the number. A price on its own is a dead end — nothing follows it, so the customer has nothing to reply to, and they take the quote to whoever asked a follow-up question.

This playbook gives you the reply for every stage of the conversation, so you are never improvising at 9pm.

PART 01

The one rule

Every message you send should make the next message easy to send. If a reply cannot be answered in one line by the customer, rewrite it.

— A price with no scope is a number. A price with scope is an offer.

— A question at the end is not small talk. It is the mechanism.

PART 02

The five-stage flow

— Greeting — acknowledge, name, one question. Never a paragraph.

— Discovery — one question about use, quantity or timing. One, not three.

— Offer — price + what it includes + what happens next.

— Close — payment method, delivery date, one confirmation.

— After — a thank-you, a care note, and a reason to come back.

SECTION A

Greeting

Opening reply to a new enquiry	Hi [Name], thanks for reaching out. Are you looking at this for yourself or as a gift?
When they only say ‘hi’	Hi [Name]. Tell me what you have in mind and I will tell you what it costs.
When they ask if you are open	Yes, we are. Are you looking for something ready now or made to order?
Returning customer	Welcome back, [Name]. Same as last time, or something different?
Out-of-hours message	Thanks for messaging. It is past closing, so I will confirm everything first thing tomorrow. One question so I can prepare: what date do you need it?
Voice note instead of typing	I will send a short voice note — easier than typing. Listen whenever you are free.

SECTION B

Price

The standard price reply	It is ₦[price], and that covers [what is included]. It is ready in [time]. Would you like me to reserve one for you?
They ask ‘how much last price’	That is the price. What I can do is [one real concession — e.g. free delivery above a threshold]. Does that help?
They ask for a discount immediately	I do not discount the price, but I can split it: 50% holds it, the balance on delivery. Would that work?

They compare you to a cheaper seller	That price is lower than mine. Check whether it includes [delivery / tailoring / the second item]. Mine does. If theirs does too, take it — it is a good deal.
They ask the price of several items	Let me give you the range first: [item A] is ₦[x], [item B] is ₦[y]. Which one should I price properly for you?
Price is above their budget	That is above what you wanted to spend. Here is the closest option at ₦[price]: [what changes]. Want me to send it?
They go silent after the price	Just checking — was it the price or the timeline? If it is the price I have one option. If it is the timeline, tell me your date and I will see what is possible.

SECTION C

Quote and scope

Written quote message	Here is what is included: [item], [size/qty], [delivery]. Total ₦[price]. Ready [date]. This quote holds for 5 days. Should I go ahead?
When the brief is vague	I can do that. Before I quote, one thing: [the single variable that changes the price]. Which do you want?
When you need a deposit	To start, I take 50% (₦[amount]) and the balance on delivery. I will send the account details now if you are happy.
When scope grows mid-project	That is doable. It adds [time] and ₦[amount]. Do you want me to include it or keep the original scope?
When you cannot do it	I cannot do that well, so I will not take your money for it. [Name] does this properly — I can send their contact.
Confirming an order	Confirmed: [item], [qty], ₦[price], delivery [date/method]. I will message you when it is ready.

SECTION D

Payment and delivery

Payment details message	Account: [bank] — [number] — [name]. Send the screenshot when done and I will confirm here.
Payment received	Received, thank you. You are on the list for [date]. I will send a photo before it leaves.
Payment reminder (gentle)	Just a reminder on the balance for [item] — ₦[amount]. Once it lands I can hold your slot for [date].
Delivery day message	Your order is going out today. [Courier/bike] should reach you by [time]. I will send the tracking or the rider's number.
Delivery is delayed	Small delay — [reason, honestly, in one line]. New time is [time]. I am sorry about that, and I will confirm once it moves.

They want to change the address late	I can change it if it has not left. Send the new address now — if it has gone, there may be a redelivery fee from the rider.

SECTION E

Follow-up

24-hour follow-up	Hi [Name], still interested in [item]? No pressure either way — just closing my list for this week.
72-hour follow-up	Last message from me on this: I have [quantity] left at this price until [date]. If now is not the time, that is fine.
They said 'I will get back to you'	No problem. When should I check back — Thursday or next week?
They bought elsewhere	Thanks for telling me. If it does not work out, come back and I will sort you out.
Re-engaging a dead chat	Hi [Name], something came in that reminded me of what you asked about — [specific]. Still relevant?
Asking for a referral	Glad it worked. Is there one person you know with the same problem? I will treat them the same way.

SECTION F

After-sale

Thank-you note	Thank you for buying from us. If anything is not right, message me here and I will fix it.
Care instructions	Quick care: [two lines only]. That is what keeps it looking right.
Check-in after a week	It has been a week — is it working the way you expected?
Asking for a review	If you are happy with it, would you mind leaving a short review? You can send it here and I will post it.
Handling a complaint	That is not the experience I want you to have. Send me a photo and I will make it right — [what you will do] by [when].
Asking for a repeat	You are due again around [date]. Do you want me to hold the same as last time?

DO THIS

The checklist

Work down the list in order. Tick as you go. If you only do the first three, you will still be ahead of most people who bought this.

Day 1	☐	Turn on WhatsApp Business. Set your name, photo, description, address and hours.

Day 2	☐	Create labels: New, Quoted, Paid, Delivered, Follow-up.
Day 3	☐	Load these six saved replies: greeting, price, payment details, delivery, follow-up, after-sale.
Day 4	☐	Create your catalogue or a single pinned message listing what you sell and what it costs.
Day 5	☐	Set a greeting message for first-time contacts and an away message for after hours.
Day 6	☐	Move every live enquiry into the tracker and label it. Clear the backlog.
Day 7	☐	Set two alarms: 9am reply sweep, 6pm follow-up sweep.

QUESTIONS

Five things people ask

Do I have to use all 36 scripts?

No. Load the six in the 7-day checklist first. Those six handle most of the money.

Will they sound like a robot?

They are written plainly on purpose. Change the names, prices and items so they sound like you. Keep the structure.

Can I use this on Instagram DM too?

Yes. The flow is the same; only the delivery time and payment method change.

Do I need WhatsApp Business?

It is free and it gives you labels, saved replies and a catalogue. Without it you are doing this by memory.

What if a customer is rude?

Answer once, plainly, and stop. You are allowed to decline work.

SUPPORT

If something is unclear

Message us on WhatsApp and ask. If a file will not open, or a page is missing, we replace it within seven days, no questions. That is the whole support promise — there is no upsell waiting at the end of it.
