5 Free Chat Scripts

A free sample from the Easywurld Chat-to-Customer Playbook. Replace everything in [brackets] with your own details, then change the words until they sound like you. Never paste a script without reading it first.

1. Price question

Use it when: “How much?”

> SCRIPT
>
> Thank you for asking. [Item] is ₦[price]. It includes [what]. Delivery is ₦[fee] and takes [time]. Would you like me to reserve it?

2. Day-1 follow-up

Use it when: They went quiet after a quote

> SCRIPT
>
> Hello [Name], just checking you received the details for [item]. Happy to answer any question.

3. Day-3 follow-up

Use it when: Still no reply

> SCRIPT
>
> Hello [Name], one more detail that may help: [useful info, photo or deadline]. Let me know if you would like to go ahead.

4. When they say: “Too expensive”

Use it when: Price concern

> SCRIPT
>
> Thank you for being honest. The price covers [value]. If the budget is tight, [option]. Would that help?

5. Review request

Use it when: After a good delivery

> SCRIPT
>
> Thank you for your order, [Name]. If you are happy, a short review would mean a lot. Here is the link: [link].
