The Big Folder: post-ready

START HERE: The Big Folder

Everything you need to post up to 11 times a day, collect leads and sell the nine ₦5,000 offers.

> HONEST NOTE
>
> More posts do not guarantee more sales. Stories and WhatsApp Status carry most of the volume. Do the four CORE slots first. The rest are optional boosts. Nothing here guarantees results.

What is in the folders

Folder	What it is
01_ALL_POSTS_IN_ONE_FOLDER	Every graphic, carousel slide and video in one flat folder, each with a matching .txt caption
00_START_HERE/All_Posts_Preview.pdf	A viewable preview of every post with its caption (no need to open files one by one)
02_DAILY_SCRIPTS	Day_01.txt to Day_30.txt: what to post at which time, with the caption to copy
03_THE_OFFERS_TO_UPLOAD	The nine products as ZIP files, with covers and seller-page text
04_LEADS_AND_WHATSAPP	QR codes, WhatsApp links, the Leads Tracker (with an Orders and Payments sheet), Google Form questions, payment guide and reply templates
05_PLAN	The 11-a-Day Schedule spreadsheet

How a day works

Open the day's file in 02_DAILY_SCRIPTS. It tells you, for eleven times in the day, which file to post and what caption to paste. Four of the slots are CORE:

1. 08:00 Instagram and Facebook feed
2. 12:30 Reel or Facebook video
3. 15:00 Facebook honest-answer post
4. 17:00 WhatsApp Status direct-response post

The other seven are optional boosts. Skip them when you are busy.

The offer of the day

Each day features one offer, rotating through all nine. Day 1 is the launch day. Pieces are reused on later days, anywhere from once to a few times across the 30 days. That is normal. Most followers see only a fraction of what you post.

How people reach you

Every post asks people to message a keyword on WhatsApp (0905 069 0837). Reply the same day. Add each person to the Leads Tracker with their permission.

How you sell the files

1. Someone messages a keyword.
2. You reply using the templates in 04_LEADS_AND_WHATSAPP. They give your Opay details.

3. The customer transfers ₦5,000 and sends the screenshot.
4. You check the money in your own Opay app (never trust a screenshot alone).
5. You send the product ZIP from 03_THE_OFFERS_TO_UPLOAD on WhatsApp.
6. You record the sale in the Orders_and_Payments sheet of the Leads Tracker (customer, business name, offer, amount).

Read Payment_and_Records_Guide.pdf in 04_LEADS_AND_WHATSAPP. It explains the whole flow using only free tools.

Or list the product on a seller page or Google Drive. Follow the upload guide in 03_THE_OFFERS_TO_UPLOAD.

Keep paid files private

Never share a public “anyone with the link” Google Drive link to the product ZIPs. Anyone who finds it can download them for free. Share a link only after payment, or use a seller platform that delivers after purchase.

Honesty rules

No guaranteed results. No fake urgency or scarcity. No invented testimonials. Value figures are always labelled “estimated replacement cost”.
